## BONE SAWS

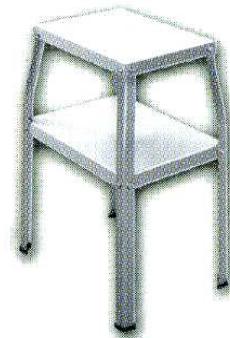

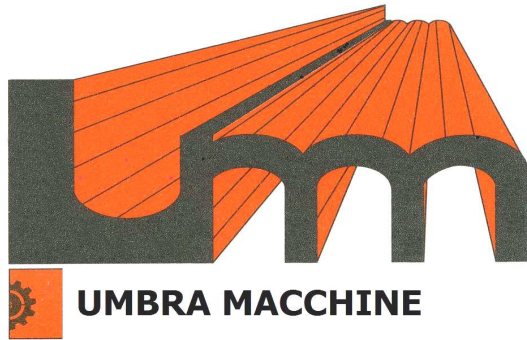

### Made in Italy

Umbra Macchine counter-top band saws offer fine cutting accuracy and ease of use. They are ruggedly constructed from top quality materials. Easy to disassemble for quick cleaning and maintenance. Our saws are very easy to clean because there are no spaces or grooves where residues of bone dust can get caught or stuck. The bodies are cast metal and nitro paint coated or anodized aluminium or all stainless steel construction, all with large (fixed or sliding) stainless steel tables. Our saws feature an adjustable blade tensioning system, a built-in cut regulator, and a pushing lever. Optional stainless steel stand. Ideal for meat counters, fish shops, restaurants, and meat and fish frozen processing plants.

**Our machines conform to CE hygiene and regulation standards.**
